

Global Indices for Reforms and Growth(GIRG)

The Government of India has decided to leverage the monitoring of select Global Indices to drive reforms and growth in the country. These Indices divided across four categories – Industry, Development, Economy and Governance, are being utilized as a means of driving India’s performance across important social, economic and development parameters and also as a means of improving citizen service delivery. The goal is not just to improve ranking on these indices but also to use these as tools for systemic reforms in the policies and process of Government agencies and financial institutions while creating a conducive ecosystem for foreign and domestic investment flow.

There are 31 selected Global Indices which are being regularly monitored by Cabinet Secretariat and for each Global Index, a Nodal Ministry and Line Ministries have been identified. MoHFW is the Line Ministry for more than 20 Parameters related to 13 Global Indices, namely:

- i. Gender Inequality Index
- ii. Global Gender Gap Index
- iii. Global Hunger Index
- iv. Human Development Index
- v. Human Capital Index
- vi. Global Competitiveness Index
- vii. Global Liveability Index
- viii. Global Multidimensional Poverty Index
- ix. Global Slavery Index
- x. Travel and Tourism Competitiveness Index
- xi. Rule of Law Index
- xii. Safe City Index
- xiii. Network Readiness Index
